

Astrology At A Glance

- Our course focuses on the spiritual aspects of astrology, rather than the scientific, with the aim to awaken consciousness which allows soul growth.
- Our astrology department consists of established, caring and passionate astrologers that bring a wealth of experience to the students.
- Each individual chart is used in class to allow students to get an understanding of themselves and others.
- To get the full richness of this symbolic ancient science we not only teach on a mental level but experientially. Through music, essences and exercises you awaken your intuition, allowing learning on a body mind and spirit level.

Did you know?

- Pythagoras, Carl Jung, Plato and Einstein were all Astrologers.
- Some naturopaths incorporate astrology when doing a consultation to ensure a suitable supplement is recommended.
- Dis – Aster came from the Latin words meaning against the stars. Dis meaning 'to go against' and Aster 'the stars'.
- A chart can be cast for a person, an event or even a country.

Marian Calcroft Graduate, Astrology

“ I had always found Astrology interesting - I love the combination of art and science it uses. I thought it would be something I did for myself 'just for fun' and that it had no real relevance or use in my life, but I was so wrong about that! It's incredibly useful on a personal level as a means of self-understanding, and I now know it is leading me to a whole new way of life (and maybe career) which will be useful not only to myself but to others. ”
