## Metaphysical Mastery

Inspired By The "I AM" Wisdom Of The Ascended Masters

### DESCRIPTION:

Metaphysics is the Spiritual science of life, the 'umbrella' under which all branches of religion, science and philosophy unite and a greater journey begins. It is the study of the Great Laws of Life and our relationship to the Divine. When you know your true Self, you can better love and experience the greatness of you, the grand purpose of your life, and *consciously* create with the Universal Laws what your Higher Mind wants – all that is loving, wise, healthy and prosperous, for you, others and the world.

We will explore and learn about:

- The Great Central Sun, The All-Mighty "I AM", the Source of all Life
- Our Individualized "I AM" Presence, our Divine Self
- The 3-Fold Flame of Love, Wisdom & Power (Our connection with all creation)
- The Ascended Masters – Our Progressive Journey of Self-Mastery
- The Heavenly Hierarchy (This includes the Angelic Host, our Guides and Guardians)
- The Violet Consuming Flame
- Working consciously with the Forces of the Universe to create harmony and balance. Where there is harmony and balance there is peace and prosperity; where there is peace and prosperity there is health, right-livelihood, right-relationship, joy and fulfilment. We are then able to fulfil the Divine Plan of our lives.
- Spiritual practices for aligning Spirit, Mind, Body, Soul and our world of affairs.

This course is for all who seek higher truths found at the heart of all world traditions. Whether a new or older student of life, it is for all who value sacred knowledge and its liberating, practical application in every area of our lives. Ideal for health and healing practitioners.

### ABOUT LYNETTE GORDON:

Lynette Gordon is an award-winning writer, lecturer, celebrant, and filmmaker. She is the author of "*The Little Book of Word Medicine*", and creator/presenter of "*The River of Life*", a CD featuring 30 inspiring affirmations and meditations.

Lynette's background includes writing and producing for the print media, TV and film in Australia, England and the United States where she worked on productions including "The Bionic Woman" at Universal Studios and "The Dukes of Hazzard" at Warner Bros.

Lynette has spent more than 30 years studying and teaching Metaphysics – The Great Laws of Life at the heart of all spiritual traditions. With her universal perspective of life, Lynette is able to bridge cultural and religious beliefs to help people feel inspired and aligned with their own source of love, wisdom and power.

Lynette's warmth and humour have made her a popular speaker, advisor and workshop facilitator. She has worked with local and international organizations, small and large businesses, multi-level marketing companies and corporations translating the Great Laws of Life into practical tools for success.

As a private consultant and college lecturer, Lynette is currently working with individuals and businesses, conducting classes and workshops, guest speaking, and continuing her creative writing in the media and entertainment industry.
