Let's talk about CLIMATE CHANGE

Conversation cards

- | | | |
|--|--|---|
| What is climate change? Is it the same as global warming? Think about it and explain in your words to the class. | Do you believe in climate change? If so, why do you think it is happening? Discuss in group. | Some people claim climate change is just part of a natural cycle and that it is not man-made. What do you think? |
| What dangers are threatening our lives and our planet? Discuss in group & make a list. | Should we be worried about climate change? Explain. Are you worried? | Do you think climate change can be stopped? What should be done? |
| Scientists predict that the ice caps will melt. What effect could this have on life on Earth? | 'Cutting carbon emissions' is an often used phrase. What does it mean and how can it be achieved? | Do you use environmentally-friendly products? Have you gone green? Give examples. |
| What's a carbon footprint? How big is yours? How can it be reduced? | Have you changed your lifestyle to save our planet and prevent climate change? What have you done? | Do you or your family drive an "eco car"? Why or why not? Give examples of such cars. |
| Are governments doing enough to combat climate change? Name some measures that have been so far. | The world is addicted to oil. Are there any alternatives to oil? Make a list of energy sources and their effect on nature. | What do you know about the Kyoto Protocol? What happened in 2009 in Copenhagen? |
| Could climate change destroy life on Earth? Discuss a best-case and a worst-case scenario. | Coal is still a widely used source of energy worldwide. Is it more or less polluting than oil? Is there a future for coal? | Should poor developing countries be asked to make similar efforts as wealthy, industrialized countries? Give your view. |

Match pictures and text

- 1 biofuel
- 2 coal mine
- 3 control panel for heater or A/C
- 4 dam - hydroelectric power plant
- 5 heavy industry
- 6 incandescent light bulb
- 7 nuclear power plant
- 8 petrol station or gas station
- 9 recycling could save the world
- 10 solar panel
- 11 wind turbine
